## Пояснения по доменам

### **akm.ssacdn.com**

Домен относится к CDN-инфраструктуре Unity Ads / Supersonic (ssacdn): в assets/iads рядом встречаются networksdk.ssacdn.com, scc.ssacdn.com и www.supersonicads.com. Это канал доставки рекламных креативов mediation, а не отдельный «gate» проверки трафика. На момент проверки DNS не резолвится, страница недоступна; к развилке «оффер / обычное приложение» хост не привязан.

### **aomedia.org**

Сайт Alliance for Open Media (стандарты AV1 и смежные медиа-технологии). В бинарнике встречается как справочный медиа-хост из кодеков/SDK (в т.ч. emsg/ID3), без сетевой логики показа казино. VirusTotal чистый; для схемы «кому открыть внешний оффер после тихой проверки» этот домен не используется.

### **api16-access-ttp.tiktokpangle.us**

API-хост рекламной сети Pangle (ByteDance/TikTok), встроенной в mediation: в коде есть запрос /service/2/app\_log/ и связанные CDN TikTok Pangle. Корневой ответ сейчас 404 — типично для API без публичной витрины. Один вендор на VirusTotal пометил домен как Malicious, остальные Clean/Unrated; это канал рекламы, а не тихая проверка «кому показать оффер».

### **braze.com**

Официальный домен CRM/маркетинг-платформы Braze: точка входа приложения — BrazeUnityPlayerActivity. Через Braze идут push, in-app сообщения и аналитика вовлечения (sdk.iad-01.braze.com / sondeim.braze.com в строках SDK). Редирект с корня ведёт на корпоративный сайт Braze. После разбора запуска, Init/MAPi Whow и WebView признаков клоакинга через этот домен нет.
