Про домен james.newtonking.com

Этот адрес лежит в метаданных библиотеки Newtonsoft.Json (Json.NET) внутри Unity IL2CPP: в строках есть ссылка <http://james.newtonking.com/projects/json> — сайт автора библиотеки James Newton-King. Приложение не ходит на него как на «gate» и не открывает с него офферы: это служебная строка пакета JSON, а не сервер проверки трафика. По VirusTotal есть единичные срабатывания, но открывается обычный блог автора без редиректа на сторонний лендинг.

Про домен nuget.org

Домен NuGet Gallery попал из той же связки Newtonsoft.Json / Newtonsoft.Json.Bson: в метаданных есть ссылка <https://www.nuget.org/packages/Newtonsoft.Json.Bson>. Это каталог пакетов .NET, а не сервер приложения и не рекламный оффер. Редирект только с nuget.org на www.nuget.org — обычная витрина пакетов. По VirusTotal чисто; на вид безопасный известный сервис Microsoft/NuGet.
