Что выводит (кратко)	title: Unity WebGL Player Joy School English. Unity WebGL Player Joy School English Joy School English -->
Где припаркован	регистратор/whois связан с парковкой: godaddy

aomedia.org

Домен aomedia.org встречается в медиа-стеке AndroidX Media3 / ExoPlayer как пространство имён стандарта Alliance for Open Media (например, метки emsg/ID3 для AV1). Это не сервер приложения Alegra Learning и не адрес оффера: с него ничего «боевого» для показа казино не грузится, это справочная схема медиа-контейнера. По готовой проверке домен чистый (0/91), без редиректа, открывается официальная страница Alliance for Open Media — на вид безопасно.

dashif.org

Домен dashif.org тоже из медиа-библиотек: DASH Industry Forum, GUID-строки для потокового MPEG-DASH (thumbnail_tile, trickmode и т.п.) внутри ExoPlayer/Media3. Приложение не использует его как gate и не открывает по нему рекламную страницу — это технические константы стандарта. VirusTotal: 0/91, без редиректа, на экране сайт DASH Industry Forum; на вид безопасно.

devplay.joyschoolenglish.com

devplay.joyschoolenglish.com — собственный хост разработчика Alegra Learning. По проверке открывается Unity WebGL Player с заголовком Joy School English — веб-версия того же учебного приложения для окружения разработки. Это не скрытый оффер и не фильтр трафика: связан с продуктом Joy School English. Детекции 0/91, без редиректа; на вид безопасно.

localplay.joyschoolenglish.com

localplay.joyschoolenglish.com — ещё один хост того же продукта (локальное/стендовое окружение). Страница снова показывает Unity WebGL Player «Joy School English». В APK нет логики, которая по ответу этого сайта решала бы «оффер или белая оболочка». Проверка: 0/91, без редиректа; выглядит как безопасный служебный play-хост разработчика.

play.joyschoolenglish.com

play.joyschoolenglish.com — основной веб-play хост Joy School English (Unity WebGL). Нужен для браузерной версии/превью того же детского курса английского, а не для подмены приложения казино-лендингом. VirusTotal 0/91, без редиректа; на вид безопасно и согласуется с названием в Play.
